## Step 1 — iPhone 5, 5S, and 5C Simultaneous Teardown

- iPhone 5, 5S and 5C side by side.

## Step 2

- Pulling off the screen is straightforward.
- Step 1 : Use the Pentalobe Tool to remove the bottom screws
- Step 2 : Use a suction cup to carefully lift off the bottom left edge of the screen
- Step 3 : Carefully work your way around the edges to release the clips around the sides.
- WARNING : Our first surprise. The 5S has an extra flex for the Touch ID Sensor.
- The sensor connector has a clip on cover that needs to be carefully removed before pulling off the sensor clip.
